

Consultations with the public

Published: 20/11/2014 Modified: 30/1/2016

The Croatian National Bank conducts consultations with the public on the draft laws.

In accordance with Article 11 of the Law on the Right of Access to Information the Croatian National Bank conducts consultations with the public on the draft laws referring to its scope of activities to gather information on the related public interests, attitudes and proposals. The aim is to encourage the interested public to provide the CNB with its opinion and suggestions on draft proposals for regulations concerning the competence of the Croatian central bank.

Draft proposals for regulations under public consultations are published in the section Open consultations. Once consultations are completed, the Croatian National Bank presents its opinion on the comments received, that is, a report on consultations with the public, in the section Closed consultations.
